**Mail Stop PCT**

June 23, 2006

Sir:

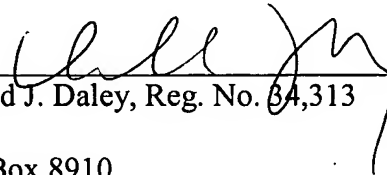

Applicant submits herewith a copy of the Declaration in connection with the present application, to ensure that the file wrapper of the present application is complete. Applicant is unsure as to whether or not the Declaration was formally submitted in connection with the present application. The Notice of Acceptance of the application under 35 U.S.C. § 371 and 37 C.F.R. § 1.495 indicates that an Oath or Declaration was filed on December 29, 2005. However, the original application filing papers do not indicate that such a Declaration was filed and indeed a surcharge of \$130.00 was paid with filing of the present application. Copies of the original PCT transmittal and Notice of Acceptance are enclosed herewith.

Although a Notice to File Missing Parts was never received in connection with the present application, due to the apparent conflict between the aforementioned two documents,

Applicant submits herewith a copy of the Declaration in connection with the present application to ensure that the present application file is complete. No fees are due as a Notice to File Missing Parts was never received and as a \$130 surcharge for late filing of a Declaration was paid with the original application as filed. Entry of the present Declaration is respectfully requested.

Respectfully submitted,

HARNESS, DICKEY & PIERCE, P.L.C.
